Introducing Annette Müller the healer, teacher, lecturer and author taking energy healing to the next level

I became a healer after being healed myself. Since then I have become Germany's most successful ambassador for energy healing. As a healer, teacher, mentor and communicator, I show it is possible to expand consciousness, achieve transcendence and go beyond the body to dissolve the true subtle causes of illness and other disorders.

To help share my experience of the minds' natural abilities to transform and heal I founded the Villa SAN ESPRIT, the first and only stationary hospital for energy healing, along with the affiliated ÉCOLE SAN ESPRIT School in Germany. Today, 20 instructors and I offer trainings in the methods I have developed. Over 400 people have graduated and now heal in their own countries.

My down to earth approach to healing

My methods of energy healing are all about results, like any form of medicine or healthcare. Inviting doctors and researchers as well as lay people to witness and explore the process and the results as well as documenting them is key to my approach. Results that often occur instantly but can last a lifetime have been verified by modern technology. Every year, I host a festival at Villa SAN ESPRIT that brings together figures of the world of healing, science and evolution of consciousness. These have included Rupert Sheldrake, Dr. Yasuyuki Nemoto, Dr. Ruediger Dahlke, and filmmaker Emmanuel Itier.

A growing audience

My mission is to increase worldwide awareness of our natural inherent power to heal ourselves and each other. In the USA, my message is resonating with more and more people who appreciate my practical and results oriented approach.

I have published the books Blazing Trails of Miracles and amazinGRACE – Miraculous Healing Alchemy. THE CURE, a documentary about healing the mind and the body, featuring myself along with Deepak Chopra and others, is in development. I am an associate-producer along with Sharon Stone. I would be delighted to share my experiences and understanding of human nature and healing with you and your community.

VILLA SAN ESPRIT

„My passion is to empower people, expand consciousness and change their lives.“

- Healer, educator, writer, speaker, publisher, event-producer
- Founder and CEO of the respected hospital Villa SAN ESPRIT and ÉCOLE SAN ESPRIT school
- Responsible for training 20 instructors and over 400 healers working worldwide
- Author of Blazing Trails of Miracles and co-author of amazinGRACE – Miraculous Healing Alchemy
- Associate Producer of THE CURE documentary
- Founder of three trademarked healing modalities

www.san-esprit.de

Today, I am widely regarded as a pioneer in the shift in consciousness which is bringing mainstream medicine back in touch with its true mission to heal rather than simply treat. I am at the forefront of a movement challenging conventional Western ideas of the nature of reality, with the power to radically change how we see ourselves and our world.

My three flagship healing modalities amazinGRACE®, SKYourself®, KAR are becoming increasingly popular.

People tell me that I am a compelling, down to earth and empowering speaker. But the most important thing for me is my mission to awaken dormant powers in people, liberate us from limitations and boundaries and work miracles.

My story

On May 17th 2004 I was driving through Munich in my tiny yellow car when I was hit by a large Mercedes that ran a red light. I suffered a severe injury of my spinal cord that left me in constant pain no doctors or therapist could relieve. My career as a successful publisher was over. I searched for a cure and discovered energy healing. It worked. Truly grateful, I felt the calling to become a healer.

What people say about me:

'Annette has created a perfect path to tap into those realms of human life where many things become possible. The two weeks of training I spent with her have been the greatest two weeks of my entire life.'

Roman Lang, Ibiza Spain, graduated from École San Esprit May 2016

'I severely injured my shoulder. The morning after an amazinGRACE® treatment I woke up with almost normal function and minimal pain. Her methods REALLY work.'

Bonny Meyer, Napa Valley USA, graduated from École San Esprit in January 2016

'My rescue cat Buttercup was in such a state when she came to me that the vet only gave her days to live. After a few short amazinGRACE® treatments by Annette Müller the results were so profound that all of my friends noticed the difference without me saying a word.'

Robin Johnson, Mallorca Spain, graduated from École San Esprit in January 2016

'When I took part in a speaker at Annette's yearly festival in Bavaria, she and her team gave me some healing sessions for a painful hip. I felt much better afterwards and this experience changed my attitude. It gave me the hope that things could get better, rather than assuming they could only get worse.'
